### About Dr Noble:

Dr Noble really was born out of his time—he loved cross-stitching and restoring antique writing boxes, and his PhD focuses on the 17<sup>th</sup> century philosopher, Nicholas Culpepper. He brought balance into his life through a love of bushwalking and gardening, along with his 30-year meditation practice, which sustained him through his final battle with cancer in 2018. Despite being frequently ill, flattened by fatigue and often depressed, he managed to complete an exemplary five degrees, culminating in his ground-breaking PhD in 2017. Dr Noble fought for years to bring the intersex community to the forefront of community awareness. He had strong views on popular misconceptions regarding intersex people, and he aimed to bring a stronger sense of lived realities and diversity, including the movement's core human rights issues of bodily autonomy and self-determination. In the early 2000s, he became a public speaker and he later joined Intersex Human Rights Australia. He remained part of the intersex human rights movement up until his death, contributing to policy debates in South Australia and nationally, and affirming the Darlington Statement in early 2018. Dr Noble was the Intersex Consultant and Communications Officer for the 2017 Gender, Sex and Sexualities Art(i)culations of Violence Committee, where he instigated crucial reforms in the way that the conference approaches notions of gender, sex and sexuality.

### About the journal:

*Writing from Below* is an online, open-access, peer-reviewed gender, sexuality and diversity studies journal. Broadly interdisciplinary in scope, it provides a forum for new and innovative research on gender, sex and sexualities and the array of intersecting issues that shape the social and personal understanding and expression of these. It welcomes both academic and creative explorations (theory is art and art, theory, after all), and specifically encourages scholarly experimentation.
